## PART A OVERVIEW

### 1. Introduction

- 1.1 Compliance with Shariah requirement is a prerequisite in ensuring the legitimacy of Islamic financial products and services. In meeting this expectation, it is essential for an Islamic financial institution (IFI) to establish the necessary operational framework and infrastructure to ensure that the conduct of Islamic financial transactions is consistent with Shariah.
- 1.2 The Shariah contract-based regulatory policy is intended to ensure end-to-end compliance with Shariah and therefore, enhance the integrity and sustainability of the IFI.
- 1.3 The policy document contains two distinctive parts, namely the Shariah requirements and operational requirements. The former highlights the salient features, essential conditions and optional practices of the *ijarah* contract including arrangement of the contract with other Shariah contracts or concepts. The latter outlines the operational requirements based on the core principles of good governance and oversight, proper product structuring, effective risk management, fair business and market conduct and sound financial disclosures. These operational requirements are aimed at complementing and promoting sound application of the Shariah principles.
- 1.4 An *ijarah* refers to a contract that transfers ownership of usufruct or service for a specified period in exchange for a specified consideration. There are two main structures of the *ijarah* in the context of Islamic financial transactions, namely the primary *ijarah* and *ijarah* financing.
- 1.5 Under the primary *ijarah* structure, the customer intends to obtain benefits from the leased asset, instead of committing to own the asset. As such, at the end of the lease period, the ownership of the asset may still remain with the IFI as the lessor. Meanwhile, the *ijarah* financing is structured to transfer the ownership of the asset to the customer at the end of the lease period. For this, the *ijarah* would be structured with supporting arrangements and/or other contracts to enable the transfer of the ownership of the leased asset from the IFI to the customer, for example, using the mechanism of *hibah* (gift) or *bai'* (sale).

- 1.6 It is pertinent for the IFI to make an assessment on the suitability of the types of the *ijarah* structure to be applied given that each *ijarah* structure have different risks and return profiles which corresponds to the degree of responsibilities and level of risk borne by the IFI and the customer.
- 1.7 The inherent risks in a primary *ijarah* structure includes the operational risk arising from the ownership of the asset, for example maintenance costs relating to the ownership, market risk associated with the potential loss in value of the asset owned by the IFI, and credit risk arising from the losses associated with the potential failure of the customer to pay the rental following the transfer of usufruct.
- 1.8 For an *ijarah* financing, the IFI is mainly exposed to the credit risk whereby the customer may potentially fail to pay the rental instalments. The operational and market risks can be mitigated given that there is a commitment from the customer to purchase the asset which enables the IFI to shift the other risks to the customer.
- 1.9 In order to ensure that the customer under an *ijarah* financing contract will be accorded with the same standard of protections as provided under the Hire-Purchase Act 1967 in the event of a repossession, this policy document also incorporates requirements to ensure that, among others, consumer protection elements in the Hire-Purchase Act 1967 relating to repossession, are reflected in the *ijarah* financing contract between IFI and its customers.
- 1.10 This policy document aims to:
- (a) set out the Shariah rulings associated with an *ijarah* contract;
  - (b) set out key operational requirements with regards to the implementation of an *ijarah* contract; and
  - (c) promote end-to-end compliance with Shariah requirements which include adherence to sound Islamic banking practices and safeguarding customers' interest.
- 1.11 This policy document sets out the following:
- (a) the mandatory Shariah requirements and permissible optional practices of *ijarah* under Part B; and
  - (b) the operational requirements on governance and oversight, structuring, risk management, business and market conduct and financial disclosure for both the *ijarah* financing and primary *ijarah* (in these parts refers as

*ijarah*) under Parts C and D respectively. The Parts describe five key principles for the sound management and operationalisation of *ijarah* and *ijarah* financing as follows:

- (i) **Principle 1:** The IFI shall establish a comprehensive governance and oversight framework to ensure that an *ijarah* transaction is conducted based on sound banking practices and complies with Shariah;
- (ii) **Principle 2:** The IFI shall ensure that the structuring and implementation of an *ijarah* is supported by robust policies, procedures, processes, adequate infrastructure and robust documentation;
- (iii) **Principle 3:** The IFI shall institute and implement sound and integrated risk management system to effectively manage risks in line with the IFI's risk appetite throughout the life cycle of an *ijarah*;
- (iv) **Principle 4:** The IFI shall undertake an *ijarah* transaction in a fair and transparent manner in line with the Shariah to protect customers' interest; and
- (v) **Principle 5:** The IFI shall provide adequate disclosure to facilitate stakeholders' understanding and assessment of the *ijarah* transactions.

## PART C OPERATIONAL REQUIREMENTS FOR AN *IJARAH* FINANCING

### 29. Governance and oversight

- s 29.1 While the existing governance and oversight arrangements can be applied on *ijarah* financing, IFIs must observe specific requirements on the roles and responsibilities of the Board of Directors (the Board), Shariah Committee (SC) and senior management as specified in paragraphs 29.2 to 29.4 relating to the application of *ijarah* financing.

- (iv) the mechanism on transfer of the ownership of the leased asset from the IFI to the customer for the *ijarah* financing;
- (v) a non-exhaustive list of *force majeure* events of which the customer cannot be held liable for any losses, damages and impairment of the leased asset; and

  - (a) refinancing practices;
  - (b) default;
  - (c) loss of legal capacity of either contracting party;
  - (d) total loss of the leased asset due to *force majeure* events; and

## 30. Structuring

### Structure

- g 30.1 An IFI may structure the *ijarah* financing by combining the *ijarah* contract with other Shariah contracts or concepts such as *bai'* (sale), *hibah* (gift), *istisna'* (order to manufacture) and *wa`d* (promise or undertaking). A common example of *ijarah* financing is *ijarah muntahiyah bi tamlik*.

<sup>5</sup> Including any early termination fee imposed.

- s 30.2 The IFI shall determine the appropriate structure of an *ijarah* financing from its inception until resolution pursuant to paragraph 22.2, including the following arrangements:
- (a) any *wa`d* either to reflect the customer's intention to own asset or the IFI's intention to transfer ownership; or
  - (b) a contract or an arrangement for the transfer of ownership of the leased asset.
- G 30.3 The IFI may use any of the following mechanisms to reflect the customer's intention to own the asset or the IFI's intention to transfer the ownership of the asset to the customer upon maturity–
- (a) a *wa`d* to purchase by the customer or a third party<sup>6</sup>;
  - (b) a *wa`d* to give a *hibah* by the IFI;
  - (c) a *wa`d* to sell by the IFI; or
  - (d) a conditional *hibah* by the IFI.
- s 30.4 Notwithstanding paragraph 30.3, the IFI shall employ the *wa`d* to purchase by the customer as the mechanism to transfer ownership in the case of early settlement or event of default.
- s 30.5 Where the structure of the *ijarah* financing involves a *wa`d*–
- (a) in the case of paragraphs 30.3(b) and (c) and the IFI acts as the lessor who provides the *wa`d*, the IFI shall fulfil the *wa`d* by executing the contract as promised upon the occurrence of the trigger events; and
  - (b) in the case of paragraphs 30.3(a) and 30.4 and the customer provides the *wa`d*, the IFI shall execute the relevant documentation if the customer intends to fulfil the *wa`d*.
- s 30.6 If an *ijarah* contract is arranged with other Shariah contract, the IFI shall adopt an appropriate sequence of the contracts and concepts that is required by Shariah in the *ijarah* financing to ensure its effectiveness<sup>7</sup>.
- s 30.7 Where the structure of the *ijarah* financing involves a *wa`d* to purchase or sell as specified in paragraphs 30.3(a) and 30.3(c) respectively, the IFI shall

---

<sup>6</sup> Refer to a person other than the customer.

<sup>7</sup> For example, IFI must ensure it has obtained the ownership of the leased asset before executing the *ijarah* contract with customer; and the sale contract to transfer the asset to customer must be effective only after the *ijarah* financing period has ended or terminated, although the sale contract is signed by one party at the inception.

determine and notify the customer on the sale price of the asset or its formula at the inception of the contract.

- s 30.8 Where the *wa`d* under paragraphs 30.3(a) and (c) are adopted and the *ijarah* financing is used to finance the acquisition or refinancing of consumer goods or motor vehicles<sup>8</sup>, the IFI shall determine and notify the customer that the final instalment amount shall be considered as the selling price of the asset.
- s 30.9 The IFI shall clearly determine the appropriate treatment of any deposits payable by the customer to the dealer/supplier<sup>9</sup>.
- s 30.10 The IFI shall accord appropriate treatment of the deposits paid by the customer in the event the *ijarah* financing is terminated.

### **Costs and expenses**

- s 30.11 Fair dealing practices shall be observed by the IFI in ascertaining cost of maintenance and takaful coverage (protection) of the leased asset pursuant to paragraph 16.7.
- G 30.12 In negotiating cost of maintenance and takaful coverage of the leased asset, the IFI may take into consideration the following:
- (a) **Adjusted rental**  
Where the customer agrees to bear the cost of maintenance and takaful contribution for the asset, the customer may enjoy a lower or a more competitive rental; or
- (b) **Total enjoyment rights**  
The IFI may negotiate for the cost of maintenance and takaful contribution for the leased asset to be borne by the customer where the customer has the right to total enjoyment of the asset during the *ijarah* period as specified in the *ijarah* financing contract<sup>10</sup>.

---

<sup>8</sup> Consumer goods and motor vehicles as defined in paragraph 29.2.

<sup>9</sup> For example, instead of providing refund to the customer who acted as an agent to the IFI to purchase the asset, may treat the deposits paid as a security deposit or earnest money.

<sup>10</sup> For example, in the case of an *ijarah* financing for residential house, customer may make modification on the house so long it does not impair the usufruct of the house and rental instalments are paid within the stipulated period.

- G 30.13 The IFI may impose other charges<sup>11</sup> that are mutually agreed by both the customer and the IFI<sup>12</sup>.

### **Rental**

- G 30.14 The rental amount or rate may be reviewed periodically during the *ijarah* financing tenure.
- S 30.15 In relation to paragraph 30.14, the IFI and its customer must mutually agree on the periodical review of the rental amount or rate at the inception of the *ijarah* financing.
- S 30.16 The IFI shall establish policies and procedures in reviewing the rental amount or rate including the trigger events that warrant the revision of the rental<sup>13</sup>.
- S 30.17 The IFI shall clearly ascertain the purpose of advance payment<sup>14</sup> received from the customer prior to the delivery of the usufruct or during the construction of the asset to be leased and accordingly record the transaction in the IFI's financial accounts.
- S 30.18 In relation to paragraphs 14.7 and 14.9, where the rental is received in advance before the delivery of the leased asset, the IFI shall determine and reflect in its policies and procedures the following:
- (a) the appropriate treatment to recognise the advance rental; and
  - (b) procedures to return the advance rental in the case of non-delivery of the leased asset or termination by the customer arising from the failure to meet the agreed specification on the asset.

### **Termination**

- S 30.19 The IFI shall specify the events or conditions that trigger the termination of the *ijarah* contract prior to the maturity date.

---

<sup>11</sup> For example, arising from late payment and early settlement of financing, *i.e.* determination of the reasonable estimate of the cost incurred for the purpose of settlement prior to the maturity of an *ijarah* financing.

<sup>12</sup> For retail customers, the imposition of fees and charges must be in line with the *Guidelines on Imposition of Fees and Charges on Financial Products and Services*.

<sup>13</sup> For example changes in the economic conditions, increase in the cost of maintaining the asset such as cost of takaful (if IFI bears the cost), new regulations by the authority, or changes in the market rate *i.e.* Base Rate (as specified in the *Reference Rate Framework*) for financing.

<sup>14</sup> Rental received in advance for an *ijarah mawsufah fi zimmah* structure.

- G 30.20 Events or conditions that trigger the early termination of the *ijarah* contract may include early settlement of the *ijarah* financing or breach of any terms of the *ijarah* contract.
- s 30.21 The IFI shall not invoke the *wa`d* to purchase the leased asset by the customer in the following events:
- (a) a total loss of the asset arising from the *force majeure* event; and
  - (b) for an asset under construction, an incompleteness or non-delivery of the asset.
- s 30.22 The IFI shall establish an appropriate resolution mechanism according to different trigger events that include the following:
- (a) events of default;
  - (b) demise of the customer; and
  - (c) partial and total loss of the leased asset.
- G 30.23 The IFI may refer to Appendix 4 which provides an example of the resolution mechanism in the event of default.
- G 30.24 In establishing the appropriate resolution mechanism in the case of demise of the customer, the IFI may consider the following:
- (a) to claim an amount from the *takaful*<sup>15</sup> (if any), to cover outstanding obligations of the deceased customer;
  - (b) to provide in the financing legal document of the *ijarah* financing a specific provision on the heir's ability to continue with the financing; or
  - (c) in the case where the legal heir opts to discontinue with the *ijarah* financing, the IFI may repossess the leased asset and terminate the *ijarah* contract.
- G 30.25 In establishing the resolution mechanism for the total loss of asset arising from *force majeure*, the IFI may consider the following:
- (a) to identify *force majeure* events and assess the level of risk of each event;
  - (b) to ensure *takaful* coverage on the *force majeure* events that are assessed to have a material level of risk; and
  - (c) to outline procedures and conditions for the customer to notify the IFI on the occurrence of the total loss due to a *force majeure* event including documentary evidence and duration to notify.

---

<sup>15</sup> For example, *takaful* credit protection scheme, reducing *takaful* or mortgage reducing term *takaful*.

**Documentation**

- s 30.26 The IFI shall develop comprehensive and legally enforceable documentation<sup>16</sup> for the *ijarah* financing that complies with Shariah requirements. The documentation shall clearly specify the ownership of the leased asset, mechanism to transfer the ownership of the leased asset, terms of the rental payment and *ijarah* financing period.
- s 30.27 The IFI shall ensure the *ijarah* financing is supported with documentary evidence, which includes the following:
- (a) ownership of the leased asset;
  - (b) terms and conditions of *ijarah* financing;
  - (c) mechanism to transfer the ownership of the leased asset;
  - (d) transfer of ownership of the leased asset to the customer<sup>17</sup>; and
  - (e) where applicable, the appointment of a *wakil* (agent) to undertake the acquisition of the asset.
- s 30.28 The IFI shall ensure that any usage of Arabic terminology in the documents is sufficiently clarified or translated to facilitate understanding of the contracting parties.

**Documentation of the asset ownership**

- s 30.29 As a lessor, the IFI shall ensure that it has relevant documentations<sup>18</sup> evidencing its ownership on the asset prior to executing the *ijarah* financing contract.
- G 30.30 The IFI may acquire the ownership of the asset through–
- (a) direct purchase from the vendor, supplier, the customer (in the case of sale and lease-back structure) or other party;
  - (b) construction of the asset (in the case of the *ijarah mawsufah fi zimmah*);  
or
  - (c) other sale-based contracts.

---

<sup>16</sup> This will cover contracts, master agreements and commercial documents such as invoices, transport document, delivery notes, document of title and other generally acceptable documents in trade and financial transactions.

<sup>17</sup> For example, the Release Letter, Notice of Ownership Transfer, Letter of Termination of Trust.

<sup>18</sup> For example, purchase invoice, novation agreement, purchase agreement or agency agreement.

**Documentation of ijarah financing**

- s 30.31 The IFI shall clearly stipulate the terms, conditions, rights, duties and obligations of the contracting parties in the *ijarah* financing contract. At a minimum, the contract shall clearly specify–
- (a) the role of the contracting parties;
  - (b) terms and conditions of the *ijarah* financing which shall include–
    - (i) a description and specifications of the leased asset<sup>19</sup>;
    - (ii) the agreed *ijarah* financing period;
    - (iii) the description, applicable treatment and terms on the recovery process associated with the events of default and total loss of the leased asset;
    - (iv) provision on the compensation mechanism in the case of a total loss of the leased asset due to negligence, misconduct or breach of specified terms by the customer;
    - (v) provision on total loss of the leased asset due to *force majeure*;
    - (vi) mechanism or formula to determine the purchase price of the leased asset in the event of default;
    - (vii) provisions on the procedures in the case of repossession by the IFI, in which the terms on repossession for *ijarah* financing involving consumer goods and motor vehicles shall observe the requirements in paragraphs 32.11 to 32.14;
    - (viii) provisions on demise or loss of legal capacity of the contracting parties; and
    - (ix) provisions on early settlement of financing and late payment of rentals; and
  - (c) rights, duties and obligations of the contracting parties in the *ijarah* financing contract which shall include–
    - (i) the payable amount of periodic rental and the total rental (if the *ijarah* financing adopts fixed profit rate);

s 30.33 The IFI must clearly provide the agreed terms and mechanism for the transfer of the ownership of the leased asset from the IFI to the customer at the inception of the *ijarah* financing contract<sup>21</sup>.

***Documentation for transfer of asset ownership***

s 30.34 The IFI must ensure the document evidencing the transfer of the ownership of the leased asset upon the maturity or at early termination of the *ijarah* contact is separately documented and executed from the *ijarah* financing contract.

s 30.35 If, at the inception of the contract, the customer executes a sale contract to transfer the asset ownership upon maturity or at early termination, the IFI must ensure that the document shall take effect only after the *ijarah* contract has ended.

***Supplementary documentations***

G 30.36 The IFI may enter into a master agreement with its customer to specify the overall structure and the terms and conditions of the *ijarah* financing.

G 30.37 The IFI may execute additional supplementary documentation on the following:

- (a) *wa`d* by the customer to enter into an *ijarah* financing contract after the IFI has acquired the asset to be leased;

---

<sup>20</sup> For example, if *wa`d* to purchase by the customer is employed, the *wa`d* document must be separated from *ijarah* financing contract.

<sup>21</sup> For example, upon an early settlement the customer who has provided a *wa`d* to purchase the asset must execute the sale and purchase contract to evidence the transfer of ownership.

- (b) appointment of agent for the customer to undertake purchase of the asset which also outlines treatment of deposits payable by the customer to the dealer or supplier either as a *hamish jiddiyyah* (security deposit), rental deposit or share of ownership;

### 31. Risk management

- s 31.1 The IFI shall effectively manage risks throughout the period of the *ijarah* financing, which includes–
- (a) the assessment and implementation of suitable risk management techniques such as setting prudent limit on financing-to-value ratio, and prudent maximum tenure of financing based on useful life of the leased asset;
  - (b) imposition of security deposit or *`urbun* (earnest money) as mitigation measure prior to purchasing an asset, if the IFI acquires the asset directly from the supplier; and
  - (c) provision of takaful coverage for the leased asset with clear conditions on the amount and types of risks<sup>22</sup> to be covered.
- s 31.2 Pursuant to paragraph 30.37(c), the IFI shall ensure that it has legally enforceable right to recourse the leased asset or other collateral through creating a binding and irrevocable documentation taking into account any legal constraints and differences among jurisdictions, and where applicable, registering its interest on the asset.
- s 31.3 The IFI shall outline in its policies and procedures, the status of permission and conditions<sup>23</sup> on the following:

---

<sup>22</sup> Such as fire, theft, accident and flood.

<sup>23</sup> For example, restriction on Shariah-compliant purposes on use of the asset and conditions to mitigate risk associated with a sub-lease and usage by a third party, such as the customer is not

- (a) sub-leasing; and
- (b) usage of the leased asset by a third party.

## APPENDICES

### Appendix 1 Legitimacy of *ijarah*

1. The legitimacy of the *ijarah* contract is derived from the *Quran* and founded on the *Sunnah* of Prophet Muhammad (peace be upon him), the consensus of the muslim jurists (*ijma`*) and analogy (*qiyas*).

#### The *Quran*

2. The following verse of the *Quran* implies the permissibility of *ijarah* contract:

قَالَ إِنِّي أُرِيدُ أَنْ أُنكِحَكَ إِحْدَى ابْنَتَيَّ هَاتَيْنِ عَلَى أَنْ تَأْجُرَنِي ثَمَنِي حَبِيبٌ فَإِنْ  
 أَتَمَمْتَ عَشْرًا فَمِنْ عِنْدِكَ وَمَا أُرِيدُ أَنْ أَشُقَّ عَلَيْكَ سَتَجِدُنِي إِنْ شَاءَ  
 اللَّهُ مِنَ الصَّالِحِينَ ﴿٢٧﴾

*And said one of them (the two women):” O my father! Hire him! Verily, the best of men for you to hire is strong, the trustworthy. He said: I intend to wed one of these two daughters of mine to you, on condition that you serve me for eight years, but if you complete ten years, it will be (a favor) from you. But I intend not to place you under a difficulty. If Allah will, you will find me one of the righteous”*.<sup>58</sup>

The above verses describe the story of the Prophet Musa (peace be upon him) being hired for a certain period of time to undertake a specific task. The compensation for the task undertaken by the Prophet is deemed as payment for the outstanding dowry for his marriage.

<sup>58</sup> *Surah al-Qasas, verse 27.*

### The *Sunnah* of Prophet Muhammad (peace be upon him)

3. The following *hadith* implies the general permissibility of the *ijarah*:

(a) عن عبد الله بن عمر، قال: قال رسول الله صلى الله عليه وسلم: " أعطوا الأجير أجره قبل أن يجف عرقه."

*Abdullah Ibn Umar narrates, the Prophet (peace be upon him) said: "Pay the hired worker his wages before his sweat dries off."*<sup>59</sup>

(b) عن أبي هريرة عن النبي صلى الله عليه و سلم: "... ومن استأجر أجيروا فليعلمه أجره."

*The Prophet (peace be upon him) is reported to have said: "... He who hires a person should inform him of his fee."*<sup>60</sup>

(c) عن عبد الله رضي الله عنه، قال: " أعطى رسول الله صلى الله عليه وسلم خيبر اليهود: أن يعملوها ويزرعوها، ولهم شطر ما يخرج منها"، وأن ابن عمر حدثه: "أن المزارع كانت تكرر على شيء."

*Abdullah ibn Umar narrates, "Allah's Apostle gave the land of Khaybar to the Jews to work on and cultivate and take half of its yield." Ibn Umar added, "The land was used to be rented for a certain portion (of its yield)."*<sup>61</sup>

### Consensus of the muslim jurists (*Ijma`*)

4. The *ijarah* has been unanimously approved by the companions of the Prophet Muhammad (peace be upon him) and prominent jurists of the recognized schools of Islamic law. They view that the need to utilize the usufruct of different articles (goods and services) is similar to the need to utilize the articles. When the contract of sale of such goods and services is permitted, the lease of its usufruct shall also be permitted on the grounds of public interest (*maslahah*) and needs.<sup>62</sup>

<sup>59</sup> Ibn Majah, *Sunan Ibn Majah*, hadith no. 2443.

<sup>60</sup> Al-Bayhaqi, *al-Sunan al-Kubra*, hadith no. 11761.

<sup>61</sup> Al-Bukhari, *Sahih al-Bukhari*, hadith no. 2165.

<sup>62</sup> Ibn al-Munzir, *al-Ijma`*, Maktabah al-Furqan, 1999, p. 133.
